Harshit Kandoi

Full Stack Software Engineer | Google Associate Cloud Engineer (ACE)

7850098453 | Kandoiharshitsdlp@gmail.com | Linkedin | Portfolio | Github | Medium Blog | Kaggle

Profile

Full Stack Software Engineer with experience building cloud-native applications, event-driven workflows, and automation systems using React, Java, Python, SQL, and Google Cloud Platform (GCP). Google Associate Cloud Engineer (ACE) certified with hands-on experience designing backend services, integrating APIs, and developing scalable workflows that streamline business processes and reduce manual effort.

EXPERIENCE

ThoughtIn Solutions India Pvt. Ltd. — Gurugram, India (Remote)
Associate Software Engineer — Aug 2025 - Present

- Engineered frontend features using React and JavaScript alongside backend services built with Java, Python, and GCP for internal business applications.
- Built cloud-based workflows using Cloud Functions, Pub/Sub, and Firestore to process notifications and automate business operations.
- Designed an event-driven email processing workflow using Gmail API, Pub/Sub, Cloud Functions, and Firestore to extract, validate, and transform incoming data for downstream applications.
- Performed testing, debugging, deployments, and production monitoring while collaborating with cross-functional teams using Agile practices.

ThoughtIn Solutions India Pvt. Ltd. — Gurugram, India (Remote)
Software Engineer Intern — May 2025 - Aug 2025

- Built backend services and cloud-based workflows using Python and GCP to support scalable application development.
- Executed deployment automation using Docker, GitHub Actions, and API integration workflows across development and testing environments.

Anantagni Industries Pvt. Ltd. — Pune, India (Remote)
AI Intern (Computer Vision) — Apr 2025 - Jul 2025

- Implemented a YOLO-based computer vision solution for plastic waste classification, achieving ~75% detection accuracy on custom datasets.
- Built dataset preparation and image processing workflows to support model training, evaluation, and deployment.

Upflairs Pvt. Ltd. — Jaipur, India
Data Science Intern — Jun 2024 - Aug 2024

- Trained crop classification models achieving ~95% accuracy using structured agricultural datasets and feature-engineered inputs.
- Performed data preprocessing, feature engineering, model evaluation, and performance analysis across end-to-end ML workflows.

PROJECTS

Local GCP Emulator (Firestore + Pub/Sub), GitHub — Jun 2025 - Jul 2025

- Created a local cloud development environment that simulated Firestore and Pub/Sub services for offline testing and debugging.
- Validated serverless workflows locally before deployment, reducing cloud dependency during development.

ASL Hand Sign Detection System, GitHub — Mar 2025 - Apr 2025

- Applied a real-time ASL recognition system for 26 hand signs with 90%+ accuracy using YOLOv5.
- Integrated webcam-based inference to enable live hand-sign detection and interaction.

Whisper Transcription Web Application, GitHub — Feb 2025 - Mar 2025

- Created a web-based speech-to-text application using Python, Flask, and OpenAI Whisper to automate audio and video transcription.
- Implemented file upload and transcription workflows that converted media content into structured text for analysis and documentation.

Movie Recommendation System, GitHub — Oct 2024 - Nov 2024

- Designed a recommendation engine using collaborative and content-based filtering techniques.
- Applied a web-based recommendation system using SQLAlchemy to generate personalized movie suggestions from large datasets.

EDUCATION

B.K. Birla Institute of Engineering and Technology, **{CGPA: 8.35}** — Pilani, India
Bachelor of Technology in CSE (Data Science) — 2021 – 2025
Sarasvati Vidhya Peeth Sr. Sec. School, **{GPA: 91%}** — Sikar, India
Senior Secondary (PCMB) — 2019 – 2021

SKILLS

Programming Languages: Python, Java, JavaScript, SQL
Frontend Development: React, HTML, CSS, JavaScript
Backend Development: REST APIs, API Integration, Flask, Backend Services
Cloud & DevOps: Google Cloud Platform (GCP), Cloud Functions, Firestore, Pub/Sub, App Engine, Docker, CI/CD
Tools & Collaboration: Git, GitHub, GitHub Actions, Jira, VS Code, Jupyter Notebook
Applied Technologies: Machine Learning, Computer Vision, Workflow Automation, Data Processing Pipelines, Model Deployment

CERTIFICATIONS

- Google Associate Cloud Engineer (ACE), Google Cloud — Mar 2026
- Docker Foundations Professional Certificate, Docker — Aug 2025
- Python Bootcamp (100 Days of Code), Udemy — Feb 2025
- Machine Learning A-Z, Udemy — Nov 2024
